

Superior range of saw blades

Diamonds Products recently launched the new Enduro Purple range of diamond saw blades.

According to Diamond Products director, Brian Clark, "Enduro Purple is a highly-durable and reliable blade, which differs slightly from our other range, as it has an appropriate-grade diamond and a different bond, which holds the diamonds in place. This decreases the lifespan of the blade. However, it makes the product more affordable and ideally-suited to smaller applications."

The Enduro Purple range of blades are custom-built for use on a 115 mm or 230 mm angle grinder, and Clark pointed out that they are designed for use in applications that include plumbing, paving, electrical and general construction.
